

Unhuman Culture

It is widely acknowledged that the unhuman plays a significant role in the definition of humanity in contemporary thought. It appears in the thematization of the Other in philosophical, psychoanalytic, anthropological, and postcolonial studies, and shows up in the antihumanism associated with figures such as Heidegger, Foucault, and Derrida. One might trace its genealogy, as Freud did, to the Copernican, Darwinian, and psychoanalytic revolutions that displaced humanity from the center of the universe. Or as Karl Marx and others suggested, one might lose human identity in the face of economic, technological, political, and ideological forces and structures. With dazzling breadth, wit, and intelligence, *Unhuman Culture* ranges over literature, art, and theory, ancient to postmodern, to explore the ways in which contemporary culture defines humanity in terms of all that it is not. Daniel Cottom is equally at home reading medieval saints lives and the fiction of Angela Carter, plumbing the implications of Napoleons self-coronation and the attacks of 9/11, considering the paintings of Pieter Bruegel and the plastic-surgery-as-performance of the body artist Orlan. For Cottom, the unhuman does not necessarily signify the inhuman, in the sense of conspicuous or extraordinary cruelty. It embraces, too, the superhuman, the supernatural, the demonic, and the subhuman; the supposedly disjunctive animal, vegetable, and mineral kingdoms; the realms of artifice, technology, and fantasy. It plays a role in theoretical discussions of the sublime, personal memoirs of the Holocaust, aesthetic reflections on technology, economic discourses on globalization, and popular accounts of terrorism. Whereas it once may have seemed that the concept of culture always, by definition, pertained to humanity, it now may seem impossible to avoid the realization that we must look at things differently. It is not only art, in the

narrow sense of the word, that we must recognize as unhuman. For better or worse, ours is now an unhuman culture.
